*Ready assembled
components
reduces Customers
in-house labour
costs.*

TTPL was set up to supply OEM's and Sub-contract manufacturers with high precision CNC manufactured turned parts.

High Quality precision components are required by today's demanding Customers. TTPL has invested in CNC machines to meet this demand.

Continual investment over the years in up to-date equipment and methods, has ensured that components manufactured by Techfore, are of the highest quality and at sensible costs.

CNC Equipment

The following CNC machines are in use at TTPL 7 days a week to meet Customers urgent demands: -

- Lynx 200
- Leadwell T-6
- Mirabel 32 x 2
- Manurhin Euroturn x 3
- Traminer 20 x 5
- Traminer 13 x 3

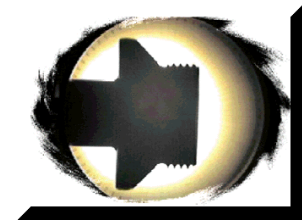

All are fully backed up with ancillary second operation equipment: -

- Millers
- Drillers
- Band saws
- Linishers etc.
- Sonic cleaning

QUALITY

At TTPL Quality plays a vital role in our manufacturing process. We understand what Customer's demand in today's competitive marketplace, and build in their requirements at the planning stage.

All parts can be supplied with Raw Material Certification if requested. A full traceability system is in operation.
